

NON-METALLIC CLAMPS

Sanitary Non-metallic Clamps designed as alternative to Standard Stainless-Steel Clamp. These are often used in single-use disposable applications. They are manufactured using a glass-reinforced, FDA grade, USP Class VI Nylon. Usually used in lower pressure 150 psi or udder applications. Developed for use in both non-metallic and metallic connections. Also, the clamps generally won't damage or distort non-metallic ferrules. In addition, they are very light weight.

Material - Nylon

Sizes - .5 inch, .75 inch, 1 inch, 1.5 inch, 2 inch, 2.5 inch, 3 inch, 4 inch

Material

Glass-reinforced, FDA grade, USP Class VI Nylon

Sanitary clamp, which was designed to address the unique needs of single-use disposable/ bio-pharm markets. Hinged clamps are manufactured using a glass-reinforced, FDA grade, USP Class VI Nylon and are designed to be used as a component for single-use transfer lines and a wide range of bio-process systems. For higher pressure applications (above 150psi), true-union clamps are commonly preferred. Hinged clamps are lot and batch traceable and ideal for use in single-use systems.

Part Number	Description
CGS13MHM-NGW-050/075	.50/.75" - Nylon
CGS13MHM-NGW-100/150	1/1.5" - Nylon
CGS13MHM-NGW-200	2" - Nylon
CGS13MHM-NGW-250	2.5" - Nylon
CGS13MHM-NGW-300	3" - Nylon
CGS13MHM-NGW-400	4" - Nylon
