

½" to 4"

Camlock Gaskets are used when coupling connections are being opened regularly. This is a robust coupling connection gasket designed for even the most corrosive chemical applications. Camlock gaskets are widely used in the food, beverage, dairy, pharmaceutical and chemical industries. We offer these gaskets in a wide range of materials, including FEP encapsulated silicone.

Material - Encapsulated Silicone

Additional Sizes Available

Sizes - .5 inch, .75 inch, 1 inch, 1.5 inch, 2 inch, 2.5 inch, 3 inch, 4 inch

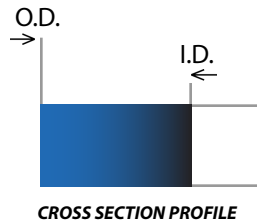

Sanitary materials used in Camlock gaskets meet FDA, USP Class VI Criteria, FDA Title 21 CFR 177 .2600, FDA Title 21 CFR 177 .1550, Current Good Manufacturing Practices (CGMP), ASME, Animal Derived Ingredient Free (ADI), FDA Compliant Mold release. BUNA-N is FDA Only.

Materials

- BUNA-N (FDA Only)
- EPDM
- FEP Encapsulated Silicone

Features

- Industry Standard
- Leak Free Seal
- Meets ASME – BPE Standards
- Comes in most types of sanitary materials
- Connection is Current Good Manufacturing Practice (CGMP)
- Most common type of connection specified by engineering firms
- Connection recognized by FDA, USP, 3A, USDA
- Sanitary Clamp Gaskets

MDXD™ Metal Detectable X-Ray Detectable Materials are FDA, USP Class VI. Additional Sizes & Materials Available

Materials are Compliant with FDA.
