

FRACTIONAL SANITARY CLAMP GASKETS

1/4" to 3/4"

Additional Sizes Available

Sanitary clamp gaskets **Tri-Clamps**® fractional mini's are the smaller sized **Tri-Clamp**® gaskets. One of the most common used gaskets today. The gasket of choice throughout the food, beverage, dairy, pharmaceutical and biotech sanitary process industries. Furthermore, these are offered in a wide range of materials and are truly the most diversified. In addition, the number 1 style of sanitary gasket used in the world.

Also, this connection is made up of stainless-steel ferrules with the gasket sandwich in between. The clamp goes over the sides of the ferrules and compresses the two together. In addition, this makes a union. In conclusion, this is a fast easy come together connection that is very sanitary.
