

# SANITARY CLAMP SLID ID TYPE I GASKETS

Sanitary clamp slit ID gaskets type I are used with Orifice plates, Sox screens and other devices. They are used when you need to insert a device like a Sox Screen into a **Tri-clamp®** style gasket. The Plate edge goes into the ID (inner diameter), middle section slit by stretching it around. As the gasket relaxes it gives a snug fit. This gives you **Tri-clamp®** gasket seal for your Sanitary **Tri-clamp®** connections. We offer these in **BUNA-N, EPDM, FKM and Platinum Cured Silicone** materials. They have the same Material certifications as our regular gaskets of the same materials.

1/2" to 4"
