

SANITARY CLAMP FLANGED TYPE II GASKETS

1" to 12"

Sanitary Clamp Flanged Gaskets are similar to the standard Sanitary Clamp style gaskets. They have a flanged outer edge that fits over the outer ferrule connection. This helps with positioning and retention during the installation process. We call this Stay in Place Alignment (**SIPA™**). These gaskets are used throughout the food, beverage, dairy, pharmaceutical and biotech sanitary process industries.
